ITEM	PART NO.	DESCRIPTION	QTY	UNIT PRICE		EXTENDED
Exigen Interaction Framework Components (CTI - Telephony)				**SINGLE-SITE**	**MULTI-SITE**	
	GRTFW001	Exigen Interaction Framework *Per Seat; Provides the computer telephony integration (CTI) technology which brings together telephony systems and data repositories to enhance voice interactions. Data is delivered to a desktop in the form of a screen pop as soon as a telephony interaction arrives.*	0	$600.00	$750.00	N/A
	GENTR001	Exigen Enterprise Routing *Per Seat; Enables the ability to identify and precisely route telephony interactions based on unique business criteria. It uses data and interaction history to make routing decisions, and it delivers relevant information to agents so that they can most effectively meet a customer's needs.*	0	$1,900.00	$2,525.00	N/A
	GNETR001	Exigen Network Routing *Per Seat; Provides the ability to balance the load of incoming traffic among multiple sites. This results in lower telephony costs and greater responsiveness as call transfers and caller wait times are minimized or eliminated. In addition, load balancing means that individual contact centers do not experience peaks and valleys in call traffic, and agents are more productive throughout the day.*	0	N/A	$2,575.00	N/A
	GOBCT001	Exigen Outbound Contact *Per Seat; The manager allows for the generation of calling lists from an organization's database, based on specific criteria to drive outbound calling campaigns. Multiple campaigns can be run simultaneously, and campaigns can have multiple calling lists. Administration and management of campaigns and calling lists is centralized and information is updated dynamically. In addition, this centralized management and control enables a manager to deploy the Outbound Contact solution across a multi-site contact center. All agents at all sites can be treated as one "virtual" pool of resources for calling campaigns.*	0	$2,800.00	$3,650.00	N/A
	GINCC001	Exigen Internet Suite *Per Seat; Leverages Framework "universal" routing capability to simultaneously handle routing requests for voice calls, e-mails, web interactions, and other media types. Universal routing evaluates each interaction type and origination so that each gets the proper treatment and priority according to business rules. The Internet solution allows an organization to manage requests as one universal queue, distributing interactions of all types, according to the current state of the customer and the business. From the agent perspective, work for all different media interactions is delivered from a single queue in a manner that capitalizes on efficiency and effectiveness.*	0	$2,650.00	$2,650.00	N/A
	GWMGT001	Exigen Workforce Management *Per Seat; Supports and provides the planning, forecasting, scheduling, and analysis tools needed to align your workforce strategy with your most critical business objectives.*	0	$1,150.00	$1,475.00	N/A
	GTGTE001	T-Gate Server *Complete T-Gate Server Software including Communications System (MT-COM) and 2 Logical Connections, e.g. Production and Test Systems. Provides an integration path between the Real-Time Framework products and ERP (Enterprise Resource Planning) SAP R/3 and MySAP.com environments. Server includes 2 instances. Each additional instance $2,500.*	0	$10,000.00	$10,000.00	N/A
	GTGCO001	T-Gate CTI Connection *Central Architecture enables the SAP Frontoffice (SAP CIC or SAP CRM) to utilize T-Gate CTI functionality. First 100 seats priced at $500 each. Additional seats priced at $400.*	0	$500.00	$500.00	N/A
	GTGCL001	T-Gate CTI Client *Client Server Architecture: Own T-Gate CTI Client Software to be installed on the local Agent Desktop(s) and offers Call Control (in own window) and produces Pop-Ups within the SAP GUI. First 100 seats priced at $500 each. Additional seats priced at $400.*	0	$500.00	$500.00	N/A
	GVSVC001	Exigen Voice Treatment Option *Per Port; Provides pre-routing information collection, enabling an organization to gather information about callers and forward this to Interaction Router, where it can be used to make more effective routing decisions - effective for menu/service selection and caller entered digit/data collection. Additionally provides for queuing call treatment, allowing an organization to apply a variety of voice treatments to calls which are being "held in queue". These treatments can be directed specifically, based upon caller characteristics (e.g. language spoken) as well as include more sophisticated messaging such as informing callers of their position "in queue".*	0	$600.00	$600.00	N/A
	G3IVR001	Exigen IVR (Behind the Switch / PBX)	0	$600.00	$600.00	N/A

LEGATO GLOBAL SERVICES - Technical Support Services

LEGATO's **award-winning** service and support organization is committed to keeping customers first. Our global teams of experts understand the challenges facing our customers and the importance of Information Lifecyle Management to meet customers' business critical needs in today's highly competitive environment. Our organization consists of individuals with years of industry experience and knowledge that works together to provide responsive software service and support. Our commitment to excellence drives delivery of world-class support services to our customers. Please contact your local Support Sales & Renewals for all support renewal requirements.

Technical Support Services

LEGATO offers annual Support Programs - Basic (24x7) Support and Premier Support - that include unlimited technical support. Annual Software Update Subscription service is also offered and includes major and minor software updates for LEGATO Content Management Software Solutions. A current Software Update Subscription is a pre-requisite to purchasing the Basic (24x7) and Premier Technical Support programs. Technical Support programs and Software Update Subscriptions are sold as unbundled offerings for Basic & Premier Support.

NOTES:

1. **Effective as of October 13, 2003,** Basic (24x7) Support or Premier Support will apply to new and renewal contracts for all Content Management software solutions.
2. **End users under current support contracts -** Standard or Premium Support - will migrate to Basic (24x7) or Premier Support at the time of renewal.
3. **Software Update Subscription Service** is not included with the purchase price of Technical Support and must be purchased separately to receive major/minor updates. See Software Update Subscription Service below for price and part number.
4. **End users purchasing new support contracts** must execute the Technical Support and Software Update Agreement for either Basic (24x7) or Premier Support, as applicable.
5. **Support contracts and add-on support** are based on a period of twelve (12) months.

Software Update Subscription Service

LEGATO's Software Update Subscription service enhances your investment in LEGATO software products by providing software updates and enhancements for the product(s) associated with your Software Update Subscription service. LEGATO's Software Update Subscription Service is provided for a period of twelve (12) months following initial shipment and/or download of products to customer, and annually thereafter upon renewal.

Software Update Subscription media kits are shipped quarterly to update customers with registered LEGATO software products. LEGATO works continually to update its software; however, not all products are updated every quarter. Software Update Subscription includes:

- Automatic major and minor releases for the supported software
- New OS support when available
- Product roadmap information
- Updated product documentation and compatibility guides
